Otherworld is a sandbox role-playing game where players explore the world in a sandbox environment where the outcome of Terraria Otherworld has been officially announced back in January 2015. The game will be made by an indie team named Redigit. We have not heard too much about the game since then. Players have been wondering what will happen to the cancelled project. They might be surprised to see that the team behind the Otherworld beta is still working on Terraria. The unofficial Terraria Otherworld beta has been announced for April 2018. The game is now being developed by Redigit studios and this means they will be making Terraria 2. They recently announced the development of a new game for Terraria with a different system than the original. The beta is set to launch in May and this beta will be available for a period of two months. This will give players a chance to try the game out and see how it feels. 04:50 03/01/2018: Beta The beta was to be released on April 1st, 2018. Instead the game was released on March 8th, 2018. A new update was uploaded a few days later. The update introduces character customization. The game now has a new item. It can be used by adding it to your backpack. The item will increase stats. From the latest trailers and information of the game, Terraria Otherworld is set to be an open world game. Players can create and discover a world filled with caves, lakes, and mountains. Players will find things like: Coral, Waterfalls, Lakes, And Mountains. terraria otherworld beta download The game will be held on a beta stage for a period of two months after the release of the official game. During this period, the players will get to explore the world and play the game to their heart's content. Once the time is over, the players will be able to play the full version of the game and the beta server will shut down. We will update you on our Terraria 2 Wiki page once more information is released about the game's development. Terraria Otherworld will run on the modified version of the original Terraria engine. It will also run on the Unreal 3 engine. The beta is going
